2005 Cohort			178	122	93	56
2006 Cohort					156	100

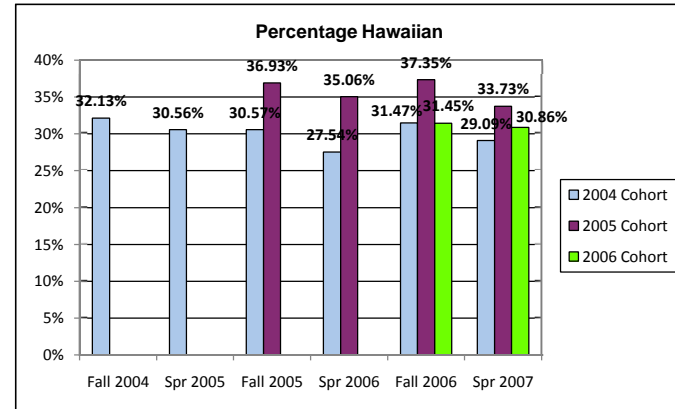

**Percentage Remaining of Cohort--Persistence**

All	Report Term					
	Fall 2004	Spr 2005	Fall 2005	Spr 2006	Fall 2006	Spr 2007
2004 Cohort	470	68.94%	48.72%	35.53%	30.43%	23.40%
2005 Cohort			482	72.20%	51.66%	34.44%
2006 Cohort					496	65.32%

Hawaiian	Report Term					
	Fall 2004	Spr 2005	Fall 2005	Spr 2006	Fall 2006	Spr 2007
2004 Cohort	151	65.56%	46.36%	30.46%	29.80%	21.19%
2005 Cohort			178	68.54%	52.25%	31.46%
2006 Cohort					156	64.10%

Pcnt Hwn	Report Term					
	Fall 2004	Spr 2005	Fall 2005	Spr 2006	Fall 2006	Spr 2007
2004 Cohort	32.13%	30.56%	30.57%	27.54%	31.47%	29.09%
2005 Cohort			36.93%	35.06%	37.35%	33.73%
2006 Cohort					31.45%	30.86%

The tables on the far left show the numbers of students in a given cohort and how many remain enrolled in subsequent spring and fall semesters.

The tables immediately to the left give the percentage of each cohort remaining enrolled in subsequent spring and fall semesters.

The first row of tables show the numbers and percentages of ALL students in the cohort. The second row of tables show the numbers and percentages for students with Hawaiian ancestry.

The charts below the tables represent the same data graphically.

This last row of table and chart shows what percentage of each cohort consists of students with Hawaiian ancestry.

If you want to see the initial composition of each cohort, look at the first column for each cohort (e.g., Fall 2004 for the Fall 2004 cohort, Fall 2005 for the Fall 2005 cohort, etc.)

The percentage will vary in subsequent semesters as the cohort number (and number of students with Hawaiian ancestry) varies.

2004	470	109	23.19%
2005	482	76	15.77%
2006	496	26	5.24%

#### Completion (or Transfer) by Cohort shows

The number of students in a cohort who are either not of Hawaiian ancestry or of Hawaiian ancestry  
 The number of students who earned a degree or certificate or who transferred to another college  
 Then computes the percentages of those who earned a degree or certificate or who transferred.

The counts are UNDUPLICATED.

A person is counted only once, no matter how many times he/she enrolled.

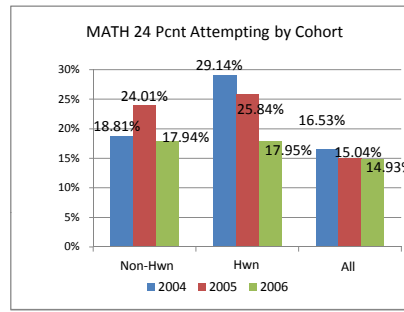

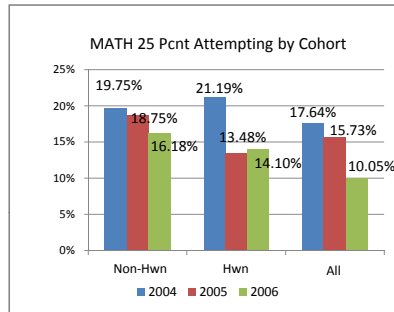

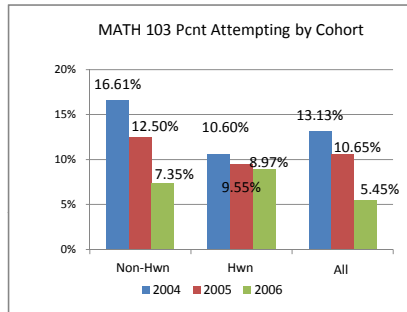

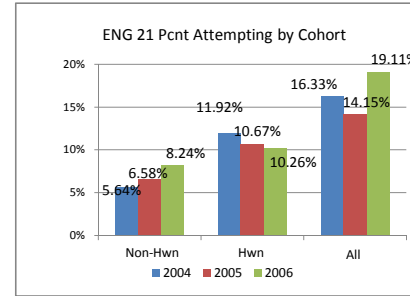

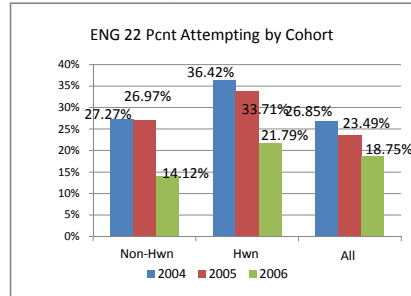

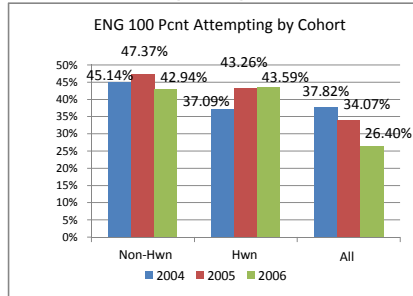

A person is counted only once for completion or transfer. If someone received two or three degrees or certificates or if a person transferred two or three times, he/she is counted only ONCE as a completer or as a transfer.

There may be differences between the total semester by semester counts of students completing or transferring and Completion (or Transfer) by Cohort counts. Those differences arise because the semester by semester counts ARE NOT UNDUPLICATED. If a student completes a certificate in a Fall term, then a certificate in a Spring term, that student will be counted twice--once each in the semester he/she received the degree and certificate.

Similarly if a student transfers in one term, returns to the college in another term, and transfers in a third term. Two transfers will be counted, each in the appropriate term.

##### Hawaiian Students

Cohort	Attmptd	PcntChrt	Passed	PcntPass
2004	56	37.09%	38	67.86%
2005	77	43.26%	53	68.83%
2006	68	43.59%	46	67.65%

##### All Students

Cohort	Attmptd	PcntChrt	Passed	PcntPass
2004	200	42.55%	152	76.00%
2005	221	45.85%	167	75.57%
2006	214	43.15%	151	70.56%

Completion by Cohort shows

- The number of students in a cohort who attempted a class
- The percentage of that cohort who attempted a class
- The number of students in that cohort who passed that class (got a C or better or a Pass or Credit grade)
- Then computes the percentage of those who attempted the class and passed.

The counts are UNDUPLICATED.

- If a person attempted to take a class three times, that person will be counted ONCE as having attempted the course.
- If someone took a class twice and got two passing grades, only the higher grade will be counted.

There may be differences between the total semester by semester counts of students taking and completing the class and total Completion by Cohort counts. Those differences arise because the semester by semester counts ARE NOT UNDUPLICATED. If a student attempted to take the class in a Fall term, then again in a Spring term, yet again in the next Fall, that student will be counted three times--once in each semester he/she enrolled. If the student passed the class in one semester, retook the class in another semester (perhaps to improve the grade), both the initial passing and the second passing grade will be counted, each in the semester the person took and passed the class.

Differences also arise because the Completion by Cohort count includes ALL terms, including Summer. The semester by semester counts show only the Fall and Spring terms.

2005	55	11.41%	34	61.82%
2006	39	7.86%	21	53.85%

Completion by Cohort shows

- The number of students in a cohort who attempted a class
- The percentage of that cohort who attempted a class
- The number of students in that cohort who passed that classe (got a C or better or a Pass or Credit grade)
- Then computes the percentage of those who attempted the class and passed.

The counts are UNDUPLICATED.

If a person attempted to take a class three times, that person will be counted ONCE as having attempted the course.  
 If someone took a class twice and got two passing grades, only the higher grade will be counted.

There may be differences between the total semester by semester counts of students taking and completing the class and total Completion by Cohort counts. Those differences arise because the semester by semester counts ARE NOT UNDUPLICATED. If a student attempted to take the class in a Fall term, then again in a Spring term, yet again in the next Fall, that student will be counted three times--once in each semester he/she enrolled. If the student passed the class in one semester, retook the class in another semester (perhaps to improve the grade), both the initial passing and the second passing grade will be counted, each in the semester the person took and passed the class.

Differences also arise because the Completion by Cohort count includes ALL terms, including Summer. The semester by semester counts show only the Fall and Spring terms.
