1. **Proposed fence between WCC and HSH**
   The Campus Safety Committee discussed the idea of building a fence between the Hawai‘i State Hospital and WCC. Some of the concerns were the message that the fence would send, if it would be aesthetically pleasing or make our campus look like a prison. A wall with a hedge was also discussed as an option of separating the properties. Funding was also an issue. Is this something that WCC would fund or could it be jointly funded?

   The possibility of WCC and HSH jointly asking the legislature for assistance with funding was also discussed. The question of a fence will be added to the upcoming campus security survey. Members of the committee were asked to each present a recommendation regarding this topic at the next Safety Committee Meeting with the hope of presenting a recommendation to the Chancellor in January.

2. **Campus Safety Initiative**
   The Safety Committee will review possible safety initiatives to focus on each month or at least have one solid project each quarter. This will be discussed in more detail at the next meeting.

3. **CPR Certification**
   19 faculty/staff members were certified in First-Aid and CPR in October 2014.

4. **Violence Against Women’s Act (VAWA)**
   Sexual assaults and dating violence on campuses are a serious concern for colleges and universities. To help reverse that trend, sweeping new mandates and government recommendations were handed down in spring of 2014; those compliance requirements were finalized on October 20th, 2014. These requirements are to help ensure that women are safe on college campuses.
There are also Title IX requirements that must be met and this will require not only better monitoring, reporting, and incident management from schools, but also education initiatives. Windward Community College will have to have enhanced safety procedures and institute programs that are aimed at preventing violence against women. Detailed information on VAWA and Title IX can be found on the Security page of the WCC website.

5. **Security Policies**

The committee also discussed the issue of campus policies and conduct policies that are often violated with no consequence or follow-up and what can be done to assure that our policies, procedures, rules, and regulation are being complied with.
