The Certificate of Achievement in Veterinary Assisting is designed to provide students with the basic knowledge and skills required to perform effectively as an assistant in a veterinarian’s office, animal shelter or animal research facility. The three-semester program includes online coursework in the life sciences, as well as hands-on experience through labs, and internships at local veterinary clinics.

Completion of this certificate from Windward Community College—now being offered to students on Maui at UH Maui College—is the prerequisite to the Vet Tech Associate in Science degree at WCC on O’ahu.

Interested students should email vetadec@hawaii.edu.
